

FROM THE DESK OF

Ms. Joann Fonzone, Esq.

IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF PENNSYLVANIA

JoAnn Fonzone aka Jdy McGrath
Plaintiff

VS.

Joe Oteri, et al
Defendants

CIVIL ACTION
JURY TRIAL DEMANDED

NO. 12-CV-5726 **RECEIVED**

APR 14 2017

FILED

APR 14 2017

KATE BARKMAN, Clerk
By _____ Dep. Clerk

Plaintiff's Motion to STRIKE DEFENDANTS' MOTION TO DISMISS
INJURY ACTION AND MOTION TO RECONSIDER ORDER OF APRIL 4, 2017,
AND MOTION FOR CO-COUNSEL AND STAY OF INJURY ACTION

1. Plaintiff by and through her attorney JoAnn Fonzone, Esquire hereby moves this Court to strike defendants' dismissed motion in its entirety and in support thereof avers:
2. Defense counsel is misrepresenting the facts to this Court in an effort to unfairly, unjustly and maliciously have this injury action dismissed in violation of Plaintiff's constitutional rights to due process.
3. Plaintiff has submitted to defense counsel materials such as a 911 transcript of October 6, 2010, her eyewitness statement of affidavit, some medical records. Plaintiff is disabled, will have neck surgery after she is cleared by the cardiac thoracic, appointment May 25, 2017.
4. Plaintiff has submitted medical reasons from her physicians stating that she should not work and has had to request

Continuances for Disney, Defense Counsel is fully aware of this fact and the fact that Plaintiff was disabled by the injuries and consequential damages and serious medical conditions as a direct result of the misconducts, heinous and egregious violent crimes of the security guard Officer Kelechenisky on October 6, 2010.

5. Plaintiff strongly objects to defense counsel's misrepresentations to this Court that Plaintiff has not complied with its document requests. Plaintiff has provided answers to Interrogatories on September 15, 2016 and its document requests September 15, 2016 and January 2017.
 6. It is Plaintiff's Interrogatories to defendants and non-parties that remain unanswered or properly answered, Plaintiff's Request for Production of Documents are completely unanswered by defendants yet Plaintiff's Motions to Compel Answers to her Discovery are repeatedly denied by this Court.
 7. Plaintiff strongly requests that this Court appoint co-counsel to help Plaintiff on this complex civil rights injury action, as it has the power to do so in the interests of Justice. Plaintiff requests a stay on the action as corroborated by her physicians.
- WHEREFORE, Plaintiff respectfully requests that this Court carefully reconsider its order of April 4, and grant the relief as stated herein.

Respectfully submitted
 J. Antonio Fonzon, Esquire

PS. On March 23 2017 Plaintiff sent letters from orthopedic Dr. Goldberg to Judge Davis's chambers stating that J. Antonio Fonzon should not be working for next 3 months. Previous medical records have been filed and sent to the Judge 2016.

CERTIFICATE OF SERVICE

I, John Fonzona, Esquire aka Judy McGrath, hereby certify that I have this day caused to be served a true and correct copy of the Motion to Strike defendant's Motion to Dismiss, etc., by U.S. Mail upon the following:

Aaron Scotland, Esq.

RE: FONZONE, JO ANN (0050341)

To Whom It May Concern:

Jo Ann Fonzone is a 58-year-old female who is under my care for her current cervical spine condition in our Back and Neck Center at Coordinated Health. Ms. Fonzone has a history of chronic neck pain since being a victim of an aggravated assault on October 6, 2010. Patient has neck pain that radiates to the upper back and down the right upper extremity. She has recently received trigger point injections in the office setting and is scheduled to receive a right sided cervical epidural steroid injection in the coming weeks. She is also currently in physical therapy for her cervical spine condition. MRI of the cervical spine was recently done on October 6, 2016 and shows significant multilevel disc protrusions causing advanced foraminal stenosis and nerve root impingement.

The patient is scheduled for her cervical epidural steroid injection on November 17, 2016 and will need several weeks after the epidural injection to allow it to take effect and should decrease her activity level during that time. Patient was originally referred to me by Dr. Randy Jaeger, an orthopedist, who was treating her for shoulder issues. She is also seeing Dr. John Williams, another orthopedic, for shoulder issues. She has received shoulder steroid injections as well.

Due to the patient's ongoing cervical spine condition with ongoing treatment, she will need time to attend her physical therapy sessions, to have her injection procedures done and to recuperate from her injection procedures. This will significantly decrease her ability to perform work related tasks and we are requesting that she be allowed an extension on her current work deadlines through the end of the calendar year. She may ultimately need several epidural injections in the course of her treatment.

If there are any questions, please do not hesitate to contact me at 610-861-8080. Thank you for your attention to this matter.

Sincerely,

Brian Goldberg, M.D.

RE: FONZONE, JO ANN (0050341)

To Whom It May Concern:

This correspondence is to followup to the letter I dictated for Jo Ann Fonzone on November 7, 2016. Jo Ann Fonzone is a 58-year-old female who remains under my care at our Back and Neck Center at Coordinated Health for a cervical spine condition.

The patient has a chronic history of neck pain since 2010. Her symptoms radiate to the right upper extremity. Since our last correspondence in November the patient has received further care. She underwent a cervical epidural steroid injection on 11/17/16 at right C7-T1 interlaminar approach with some relief of symptoms. The patient also has received trigger point injections. The pain returned on February 16, 2017. The patient underwent repeat cervical epidural steroid injection. However, this did not provide relief of her symptoms. She only received short term relief with trigger point injections and has constant pain in the neck radiating into the right scapula and shoulder region. This limits any prolonged activity, any repetitive bending or twisting of the neck region. Patient is an attorney and remains unable to fill her job duties due to her constant pain.

The patient is also currently in physical therapy at Coordinated Health for her cervical spine.

At her last office visit on March 22, 2017 the patient still reported a pain rating of 8/10. Given her persistent pain refractory to conservative care the patient is referred to Dr. Christopher Wagener, our spine surgeon, for surgical evaluation. She sees Dr. Wagener on April 4, 2017, and it is my opinion that there is a strong likelihood that she will require surgical intervention for relief of her symptoms.

AFFADAVIT OF FACTS IN REPLY TO MEMORANDUM TO POLICE COMMISSIONER FROM
INTERNAL AFFAIRS , COMPLAINT # 10-724

Dear Sir,

I recently was given a copy of the IA report of John Evans . I was compelled to set the record straight and give you a true version of the incident because , in the report, I was libeled, slandered and have had my character almost as viciously attacked as my body was on October 6, 2010.

Many pieces of information were withheld from me and I am still discovering information about the incident and procedures. Preliminarily, John Evans was the supervisor who signed the complaint to have me arrested for disorderly conduct on October 6, 2010. Then, three weeks later, he was promoted to IA and assigned to investigate my IA complaint. I know a lot about conflict of interest and clearly, this constituted conflict which prevented IA from doing a complete and thorough and unbiased investigation. Even before I was aware that Mr. Evans had signed the complaint, (I learned of this when I obtained a copy a few months ago), I requested a female officer to investigate my IA complaint or someone other than John Evans because I had a gut feeling that he would not do a through investigation. I reached this decision after I gave him names of witnesses and told him about the 911 audio CD (I called 911 twice from the jail cell after I was thrown against the wall by Officer Kisliewski), hospital records, and he dismissed these as unimportant and did not interview these witnesses or obtain the 911 audio and did not want copies of the ER records . Captain Gramlich would not assign someone else to investigate.

Though the alleged investigation was completed in March 2011, I was not informed of this until June 2011 and only because I made many phone calls to try to find out what was going on with the investigation. Each time , I was told Evans was not available, then I would ask for his supervisor or Captain and was told the same thing. I was treated with astounding disrespect.

When I was finally told that the investigation was complete and that the findings were unfounded, Deputy commissioner Johnson said that he would look into the matter. Also, I was told by Deputy commissioner Fox that she was going to assign someone else to investigate because I gavg her a copy of the 911 CD.

When another investigator was not assigned, I went to the Police Advisory commission and gave my statement to that agency . PAC has been helpful, respectful and courteous to me, and its members have treated me with the respect and dignity that every crime victim deserves. I have sent them further information as I obtain it. In return, they have provided information which no one else has in nearly 2 years. There is another DC number in this case, the hospital transport incident report which indicates that I was taken to the ER while in custody because I was injured. Though there are inaccuracies on the report, like date and for starters, it is proof that I was an injured crime victim on October 6, 2010.

The other DC number is 2010-42106 was reviewed by Sgt. Addison #8659 1st District. Sgt. Addison when making rounds, saw that my hand, arm and wrist were bruised, contused and very swollen and told me that I needed to go to the hospital. He was a helpful police officer one that the department is lucky to have in its employ.

I obtained this report on July 3, 2012 because I was unaware of the report until June 25, 2012 when PAC told me that if the police transport someone to the hospital, they must file a report.

When I filed the IA complaint, I red on the back of the form, that, as a part of the checks and balance process that a copy of the complaint was forwarded to the District Attorney. Since I filed the complaint in November 2011, I have tried to find out who the complaint was sent to at the D.A. And have been accused of stalking because I called the DA office to obtain the name of the ADA who got the complaint. I still do not have that information or know if the complaint was ever sent to the DA.

Moving on to the Memorandum of P/O Lightfoot. I will provide correct and true information to refute the inaccurate statements in the report. I did not allege or accuse any police officer of theft of property, other than the taking of my Phillies playoff game ticket from my bag in the police room. I alleged physical injuries.

I signed the consent form on January 28, 2011 for John Evans to obtain the ER records, though I had a copy with me that day and a lot of other pertinent information, photographs of my injuries and other evidence, but he did not want to see anything and did not want the ER records. Several months ago, the ER records were sent to IA because the hospital sent me a letter which stated that.

Evans seemed more concerned about the condition of my cell phone than the physical injuries I suffered. The cell phone was in my left jacket pocket, not my right. I put the phone in my pocket after I tried to call a friend during the game, but as the crowd was so very loud, (WIP Radio said that that game was the loudest ever at the stadium), I couldn't have the conversation and put the phone in my pocket and not my bag.

Contrary to the report, I did not request treatment. Sgt. Addison saw the bruises, contusions, and swelling of my right hand, wrist, and arm when he did his rounds, and told me that I needed to go to the hospital and would have officers take me there. (there were also other non-visible injuries).

At the hospital, while in the triage area, I had a grand mal seizure from the trauma to my head when it was pushed into the stadium seat a few hours earlier. (I don't take seizure meds anymore because they only recur when I suffer a trauma to my head). I had x-rays of my hand, arm and shoulder, and a urine test because I had just finished taking antibiotics for a sinus infection. When I left, I was given a prescription for tylenol with codeine which I never had filled as I am allergic to codeine. I was in severe pain from the physical trauma to my body.

I did not tell John Evans that I was unemployed. I said that I was still treating for injuries and the heart condition that I have as a result of the serious physical injuries and blunt force trauma to my chest that I survived when I was hit repeatedly with P/O Kilsiewski's nightstick in the jail cell at the stadium, after he threw me against the wall the second time and I landed on the ground.

What state Bars I pay membership dues to is not Evans concern when his job was to investigate my IA complaint. My employment is unique; I represent myself on some cases because I know the facts better than other lawyers. I passed the California Bar and the Multi state in 1986 which qualifies me for the District of Columbia bar too. I applied for the PA bar and could waive into the NY Bar too. But as I am recovering from injuries and have suffered other injuries from retaliation, my Bar status is fine for me right now.

As a police officer, Evans should know that a PFA Order is issued by a Judge, not the sheriff. I have a permanent Order from a federal court, is valid in any state, so whatever Evan thinks he knows about my life and violent estranged spouse is negligible at best. I suggest that he try to listen and believe abuse victims as we tell the truth, deserve to be heard and treated with the respect.

To the best of my knowledge, no fans shouted at me to sit down. The crowd of more than 46,000 was so loud cheering for the team. No one told me to sit down.

Evans' version of what the woman next to me on the Trans Bridge bus and at the game was inaccurate. Florence did not say that everyone sat down except Jo Ann Fonzone. She did not say "fans shouted at her to sit." She did not say "a Phillies usher asked her nicely to sit". She also did not say to the usher how much she paid for her ticket. And she did not say "it was obvious Jo Ann didnt want to walk."

The truth is that I was pushed up the steps by P/O Bee, Kileweski, and Oteri after suffering trauma to my head a few minutes earlier, when my head hit the seat as I was shoved by Kileweski and Oteri.

Philadelphia Police Dispatch recorded the 911 call for help that Jo Ann made from the jail cell at 6:13 p.m. October 6, 2010. It is rather peculiar that security guard Oteri claims that at "6:13 Jo Ann was outside being disruptive by standing at her seat during the game and refusing to sit in her seat" and that at that time, "he was asking her to sit multiple times and then she cursed at him".

Jo Ann finally obtained a copy of the 911 CD more than a year after she made the call, and the call was made at 6:13 p.m. Of note, a copy of the CD was sent by dispatch to the District Attorney at the same time that it was sent to Kim Gray, Esquire who subpoenaed it after her interview with Jo Ann on October 15, 2010.

There is no mention of any hostess or hostess' name in any other reports and I have no knowledge of any hostess telling me to sit down and certainly not multiple times. Oteri did not ask me "to come up to the top to discuss anything. He did not offer me a seat in the handicapped section. I did not speak to him other than to yell at him, "hey let go of my arm, you're hurting me", what are you doing? "when he was pulling at my arm". Later I said, when he and the PO were dragging me from the seating area, hey, I'm getting my bag "which was also on the ground. Oteri did not eject me from the game.

Officer Ortiz was not at the scene at the stadium and did not personally view anything there. She was a passenger in the transport vehicle from the stadium to the 1st district. She did not attempt to escort me from the stadium. I did not swing my arm at her or anyone. Both of my arms were grabbed from the back from behind me by P/O Bee and Kileweski while I was standing in the concourse area watching the game for about 10-15 minutes. I was in this area after I was shoved up the steps by the officers.

When I was standing watching the game then abruptly grabbed and dragged, I yelled 'what are you doing? I'm just watching the game.' P/O Kileweski replied, "we want to talk to you." So, I was pulled by the back of my arms with only the heels of my feet touching the ground into the police room and thrown on a chair. I was yelling for them to stop hurting me as many people watched the horrendous brutal incident.

Security guard Oteri was in the hall and not in the police room or adjacent jail cell. He did not see what occurred from outside in the hall. I was not offered anything to drink I asked what the charge was and was I under arrest. I was ignored. I was then handcuffed by P/O Bee. As my nose was running and I was crying profusely from the pain and trauma and because I still had a sinus infection, I asked for tissues and was ignored.

Oteri might have witnessed P/O Kovacs take my souvenir playoff ticket from my bag. Kovacs found my attorney ID card and an IA card from Lehigh County. P/O became enraged upon hearing P/O Kovacs say, "OH, you're a lawyer, why do you have an Internal Affairs card?"

Since I have had no contact with my estranged spouse since I left California in 1994, I don't keep up with his latest publicist or whatever the so-called employees do for him. Ms. Shuck, the publicist who claims to know it all actually knows nothing about the hell my life has been since I signed my life away more than 30 years ago to a marriage contract with the fraud.

P/O Jenkins and Baldwin did not hear me tell triage nurse that my injuries occurred prior to being arrested because I did not say that. I said my head was injured before I was arrested, and other injuries occurred while I was in custody in the jail cell at the stadium. I reported to the staff that I was the victim of an assault. I told the hospital staff that a security guard had grabbed my right arm, then later my head was pushed into the seat at the stadium. I then said I was thrown against the wall twice and hit in the chest with the Police nightstick and that my chest was hurting.

I did not speak to officers Baldwin and Jenkins and certainly did not say that I received all of these injuries prior to being arrested at the game. It is astonishing the lengths some go to to try to discredit innocent individuals. I was not unhappy because I was only given Tylenol. I was given a prescription for Tylenol with codeine which I am allergic to. I was in severe pain and could not take it for the pain. I did not fill the prescription after I got home the next day. I went to my family physician who saw the huge contusion on my chest and ordered an immediate chest x-ray and echocardiogram. I have been treating with cardiologists since then and am on medication for the blunt force trauma caused heart condition I now have from being beaten severely with the P/O Kileweski's nightstick.

Naturally, I also have Post Traumatic Stress Disorder from the aggravated assault, reckless endangerment, harassment etc. (like a veteran or abused individual), which I survived October 6, 2010 and since then.

P/O Landis is incorrect. P/O Ortiz did not bring me into the police room. P/O Bee and keliwiski did, threw me on a chair. P/O Kovacs took my bag, went through it, commented about my ticket, took it and didnt put it back in the bag, As mentioned, he also commented about my ID and IA card. Admitted, I was probable disheveled as I had just suffered trauma to my head and ws dragged into the police room by my arms while doing nothing wrong, just standing watching the game for 10-15 minutes in the concourse area. Bee did not tell me I was under arrest or Mirandize me. I was not told of any criminal charge and did not know what I was charged with until the next morning at video arraignment I was told disorderly conduct. When I asked what I had done, I was told "someone wanted everyone to sit down." Who was this that falsely implicated me in the criminal system? i still do not have that 6th Amendment right to know the nature and cause of the arrest answer.

I was not cursing in the police room; there were no commands said to me. I asked "why they were doing this , I said, " I didnt do anything wrong." I said, " I'm just here to watch a playoff game."

I was traumatized, felt like I had a concussion and was crying in pain. After Kovacs and 2 others at the desks looked at the ID and IA cards in my bag and commented, P/O keliewski became extremely agitated and angry. Then, he took me from the chair into the adjacent smaller room, and when the door closed, he threw me against the wall. I fell to the ground. I knew something was going on and was not right, so I got my cell phone from my left jacket pocket and called 911. I told them where I was that I was being physically attacked and that I needed help. I mentioned Bee, Kovacs but was so upset and crying I couldnt pronounce kelewiski's name. Then, I heard the door open, so I put the phone back in my pocket. P/O again threw me against the wall again and I again fell to the floor. When he left, I again called 911, but didnt have a chance to speak because I heard the door open. P/o kelewiski then yelled, give me that phone , I know you have a phone. (911 dispatch had called the P/o out in the police room when I told them I was at the stadium in the jail cell). P/o kelewiski then began to hit me with his nightstick repeatedly on the chest before he finally left , I was yelling for him to stop hitting me.

P/O Landis did not see P/o kelewski throw me against the wall or hit me with a nightstick as he was not in the jail cell room.

P/o Person was the driver of the police vehicle which transported me to the 1st district from the stadium 3rd district. He was not in the police room at the time so how could he determine anything. Or that I was screaming or cursing. Admittedly, I was yelling and crying while being injured in the jail cell room. P/O Person did not see any of the physical attack as he was not in the jail cell room. P/O Person did not observe Phillies security confiscate my playoff ticket because he was not at the scene until he was called later to drive me to the 1st district. Furthermore, P/o kovacs took the ticket from my bag, not the Phillies security.

While I was standing in the concourse watching the game, I was grabbed from behind by the arms by P/O Bee and Kellwiski. I did not swing at P/o Ortiz or see her then. (she and P/o person were called in for overtime to drive me to the 1st precinct.) I was startled and scared when grabbed from behind, then dragged with only the heels of my feet touching the ground, across the concourse into the police room. I was yelling, " hey what are you doing? I'm just watching the game ." I heard then, " We want to talk to you."

I was traumatized, not irrational or kicking or cursing. I was not Mirandized at the stadium or at anytime thereafter.

P/O Ortiz did not see P/o kelewiski hit me with the nightstick or throw me against the wall as she was not in the jail cell where it occurred.

P/o Ortiz did not observe Phillies security confiscate my playoff ticket because they did not do that. P/o Kovacs took the ticket from my bag.

P/O Kovacs slandered and libeled me as I was not hostile or deranged while in the police room or ever. I called 911 for help from the jail cell after I was thrown against the wall and in fear for my life. The 2nd time I called, I didnt get a chance to speak. Then, P/o keleeweski demanded that I give him the phone after he learned I had called 911 for help.

P/O Kovacs did not observe Phillies security confiscate my ticket because he had in fact taken it from my bag and did not place it back in the bag with my other property.

Neither P/o Bee or anyone else spoke to me about Phillies code of conduct. I have been to other games and never had a problem or suffered any injuries. No one ejected me from the game. No one gave me any verbal commands. I did not fling my arms around anyone. I was grabbed from behind and dragged across the concourse. Prior to this surprise from behind attack, I was standing enjoying the game for about 10 -15 minutes. I yelled" what are you doing, I'm here to watch the game", when I was grabbed from behind. I did not scream obscenities . There was a capacity crowd at the playoff game and people were standing everywhere .

I was put in handcuffs, was crying and traumatized in the police room . Perhaps this is known as uncooperative and out of control to some.

P/O Bee did not see P/o throw me against the wall or hit me with the nightstick as he was not in the jail cell room at he time . P/o Bee did not observe Phillies security confiscate my playoff ticket , which is peculiar since everyone said they did. .

P/o keleweski is incorrect when he says that the Phillies security decided to eject me. No one told me to sit down. And, P/O kisewelski did not ask me to leave. He and Oteri grabbed my arm forcefully, pushed and shoved me til my head hit the seat in front of me. I fell to the ground from their shoving. Then, I heard the guy in front of me yell to them, " let her alone, she didnt do anything wrong!" As I tried to pick myself up and get my bag, they continued to grab at me, pulling me out of the area. I said, "Im getting my bag." then, P/O Bee, Keleweski and Oteri pushed me up the steps until I was a t the concourse area . I stood in that area for 10-15 minutes watching the gme, until I was grabbed from behind, as previously mentioned.

P/O Ortiz did not handcuff me while I was outside the police room. I was handcuffed inside the police room by a male officer, Bee. P/o keleeweski was not outside the police room. He was inside the police room and then in the jail cell room.

P/O keleewsiki did not see any other officers throw me against the wall or hit me with the nightstick because he was the violent perpetrator that committed those heinous, reckless and aggravated assaults and caused me serious and irreparable damages. There was not even any probable cause to arrest me.

I did not file any complaint against officer Ortiz but I have learned recently that Evans told her and the other officers that he interviewed that I had filed complaints against every officer that was interviewed by him for this investigation. This was an unfair, untrue, slanderous and prejudicial statement for him to make to each officer and ensured the incomplete, biased, unfavorable conclusion of this investigation. My question about that, is why and what motive did he have for doing such a thing?

Based on the foregoing actual and accurate facts, I submit that the conclusion on page 9 of the Memorandum was erroneous, unsubstantiated and reached by the negligent investigation of John Evans.

September 13, 2016

RE: FONZONE, JO ANN (0050341)

DOB: 07/19/1958

To Whom It May Concern:

Jo Ann Fonzone has been under my care over the last 12 years for multiple physical musculoskeletal issues secondary to longstanding history of physical injuries. Secondary to motor vehicle accidents in 1985 and 1991 she has undergone 2 spine surgeries for disc herniations of the lumbar spine and cervical spine. Jo Ann also has reported a history of criminal assault secondary to domestic violence with secondary PTSD, traumatic brain injury, visual impairment. She reported a history of domestic violence injuries dating back to 1993 and criminal assaults in 2004 and 2005 and 2010. Secondary to the chest trauma in 2010 she developed palpitations and arrhythmia per report and in 2013 was diagnosed with pericardial effusion. She reports that she has been hospitalized 5 times since her injury in 2010 and is currently followed by cardiology for medication management.

Secondary to the multiple physical injuries she has been physically unable to pursue gainful employment and is disabled. She is only currently taking medication for her heart condition. Jo Ann continues to see multiple specialists and has seen many specialists for her injuries. She has reported most recently shortness of breath from the chest injury with difficulty breathing, limitations in her functional activities secondary to chest pain, pressure, and shortness of breath. Jo Ann is currently working part time and is applying for disability and unable to pursue a career in her training as an attorney.

If you have any questions, please feel free to contact me.

Sincerely,

Scott Stoll, M.D.

Fellow American Board of Physical Medicine and Rehabilitation

Interventions Provided

Diazepam 5 MG Oral Tablet - Stop

Propafenone HCl ER 425 MG Oral Capsule Extended Release 12 Hour - Stop

Call Office; Done: 04 Apr 2017

Follow-up visit - Diagnostics Review; Done: 05 Apr 2017

Surgery Scheduled:

Discussed conservative and surgical management for above diagnosis(es). Risk and benefits discussed with the patient.

ACDF C5-7 with RIGHT ICBMA

Patient has failed all conservative treatments, which included: epidural injections, physical therapy and pain medication.

The diagnosis, treatment options and associated risks were discussed with the patient to include no treatment, non surgical treatment, and the potential for surgical intervention. The patient was given the opportunity to ask questions regarding each

The diagnosis, treatment options and associated risks were discussed with the patient to include no treatment, non surgical treatment, and the potential for surgical intervention. The patient was given the opportunity to ask questions regarding each.

It was articulated to the patient that generally those patients with protracted/prolonged symptoms that are greater than four months have less successful outcomes that those who have their surgical problems addressed sooner. The natural history of cervical herniated disc/foraminal stenosis was discussed in detail. The reasons for pursuing operative intervention as they related to the patient's symptoms was specifically discussed. Surgery for this problem most reliably relieves upper extremity pain and is less successful for axial neck pain or recovery of motor or sensory deficits it may prevent progression. Surgery should be considered for patients who have failed non-operative management, have incapacitating pain, or a worsening neurological exam. Surgery is not urgent or mandatory. In my opinion, the patient would be an appropriate surgical candidate. The patient has been informed of the various risks and benefits of an anterior cervical fusion including but not limited to, the risks of anesthesia, infection, bleeding, blindness, neurologic damage up to and including complete paralysis, spinal fluid leak, nerve root damage, hoarseness/injury to the recurrent laryngeal nerve, injury to the trachea and esophagus and the possible need for repeat surgery. This also includes headache, stroke, failure of fusion, pain, discomfort, or abnormal sensation due to hardware metal sensitivity or to the bone graft harvest site, failure to relieve pain or recurrence of pain well as the risk of degenerative changes or instability that may occur above or below the fusion. The elective nature of the surgery was stressed and the alternative of continued observation was discussed. I explained to the patient that surgery would not make their spine normal again. The goal of surgery is to decrease their symptoms and improve function. Surgery mechanically changes the spine and in the long term, other areas of the spine can be indirectly affected. We discussed the usual pre and postoperative protocol and all questions regarding this have been answered to the patient's satisfaction so that a clear understanding has been obtained by all parties involved.

Patient must be off Eliquis 7 days pre op

CT scan to be ordered for preoperative planning of cervical spine osseous structures; patient has failed PT, 2 ESI and continues with pain and disability and progression of symptoms.

Patient to be seen back with CT scan.
